

PRAIMO

Stainless Steel Cartridge Filter Housing

Praimo manufactures high-performance Stainless Steel Cartridge Filter Housings for liquid filtration in chemical, pharmaceutical, food & beverage, water treatment, oil & gas, and other industrial applications. Available in SS304 and SS316 with custom configurations.

Specification	Value
Material	SS304 / SS316 Stainless Steel
Filtration Rating	0.1–100 Micron
Flow Rate	Up to 100 m ³ /hr
Design Pressure	Up to 10 Bar
Operating Temperature	Up to 150°C
Connection	Flanged / Threaded
Cartridge Lengths	10", 20", 30", 40"
Housing Type	Single / Multi Cartridge
Applications	Water, Chemical, Pharma, Food & Beverage, Oil & Gas

Key Features

- Corrosion-resistant stainless steel construction
- High dirt holding capacity
- Easy cartridge replacement
- Custom sizes and configurations
- Suitable for high-pressure industrial filtration
